Claims 6-10 are again rejected under 35 U.S.C. 102(a) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over the patent to Dontula et al. (USP 6,514,659) for the reasons of record.

The claims are not commensurate in scope with applicants' arguments. In particular, the language "inserted between the base material sheet and the base material film" fails to preclude intervening adhesive layers. It is suggested that applicants recite that the extruded resin is in direct contact with the base material sheet and the base material film. Such an amendment would overcome the existing rejections and would be considered after final by this examiner.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
